

Congratulations to the 2017 Ducommun Scholars

DUCOMMUN AWARDS EIGHT COLLEGE SCHOLARSHIPS

Ducommun Incorporated (NYSE: DCO) has named eight Ducommun Scholars who will each receive a \$2,500 scholarship for college expenses in the 2017-2018 academic year. Ducommun provides funding for up to eight scholarships annually. The program is exclusively for full-time employees' children and grandchildren who attend a college or vocational school.

"Congratulations to our 2017 Ducommun Scholars! We're pleased that Ducommun is able to support their educational aspirations. We wish them success in the upcoming academic year and a lifetime of continuous learning," said Rose Rogers, vice president and chief human resources officer.

The students were selected by Scholarship Management Services, a division of Scholarship America, which independently administers the application and review process, and award selection for the Ducommun Scholars program. The scholarships are based solely on merit—academic record, leadership, and participation in school and community activities. ■
