BIOGRAPHY

Joe Bellino, Vice President, Chief Financial Officer and Treasurer
Ducommun Incorporated

Bellino is a key member of the executive management team and has responsibilities for the financial and information technologies activities of the company.

Bellino joined Ducommun in 2008. Previously, he was executive vice president and chief financial officer for Kaiser Aluminum Corporation. Prior to that, Bellino served as chief financial officer and treasurer of Steel Technologies Inc., now a joint venture of Nucor and Mitsui & Co., Ltd.

Bellino holds an MBA from Ohio State University. He also graduated cum laude with a bachelor’s degree in finance from Ohio State. Bellino attended the Executive Management Program at The Pennsylvania State University.

Founded in 1849, Ducommun Incorporated provides engineering and manufacturing services to the aerospace, defense, and other industries through a wide spectrum of electronic and structural applications. The company is an established supplier of critical components and assemblies for commercial aircraft and military and space vehicles as well as for the energy market, medical field, and industrial automation. It operates through two primary business units – Ducommun AeroStructures (DAS) and Ducommun LaBarge Technologies (DLT). Additional information can be found at www.ducommun.com.
