BIOGRAPHY

Tony Kelsey, Group Vice President
Structural Systems Group

Tony Kelsey is group vice president for Ducommun’s Structural Systems Group, which develops and manufactures complex structural components and systems for commercial and military fixed wing and rotary wing aircraft, space and other applications.

Kelsey has more than 30 years of experience in manufacturing and program management. He joined Ducommun in 2004 as vice president of operations for the former Ducommun AeroStructures. Before joining the company, Kelsey was a program manager for Goodrich Aerostructures.

Kelsey holds an MBA from the University of La Verne and a bachelor’s degree from California Baptist University. He completed the Total Quality Management program at Riverside College. Kelsey studied lean manufacturing through Moffitt Associates, and inventory control at Mercedes Benz of North America.

Founded in 1849, Ducommun Incorporated provides engineering and manufacturing services to the aerospace, defense, and other industries through a wide spectrum of electronic and structural applications. The company is an established supplier of critical components and assemblies for commercial aircraft and military and space vehicles as well as for the energy market, medical field, and industrial automation. It operates through two primary business units – Ducommun AeroStructures (DAS) and Ducommun LaBarge Technologies (DLT). Additional information can be found at www.ducommun.com.
